## SUMMARY

Attentive and creative developer with 5 years of experience building reusable components and interface features with React JS framework across websites and mobile applications. Proven success in increasing users' satisfaction by 40%.

## EXPREANCE:

### React JS Developer

Haptic Z Inc., Chicago

Mar 2019 - Feb 2022

- Developed and implemented Web protocols and standards (CSS3, Web Forms, XML) for a better browsing experience for users.
- Conducted frequent reviews of applications' integration and interface designs to ensure their compatibility with existing web features and applications. Monitored front-end performance and reported application errors if any.

### React Developer

TECH GIANT, Newyork, NY

Dec 2019 - Feb 2022

- Analyzed errors in functionality and performance of web infrastructure. Debugged application codes to cut down real-time bounce rate by 35%.
- Created high-quality mock-ups for interface features and on-web designs with different prototypes and graphics, ensuring the compatibility of visual elements with websites' architecture.
